EDUCATION

KAIST <i>Ph.D. in Artificial Intelligence</i> - GPA: 4.0/4.0 Thesis: "Scalable Multimodal AI for Real-time Product Recommendation" - Published 5 papers (NeurIPS, ICML); 2 patents filed	Daejeon, South Korea 2023 – 2025
Seoul National University <i>Master of Business Administration (MBA)</i> GPA: 4.0/4.0 Focus: AI Product Strategy & Global Tech Management	Seoul, South Korea 2021 – 2023
KAIST <i>Master of Science in Computer Science</i> GPA: 4.0/4.0 Valedictorian	Daejeon, South Korea 2019 – 2021
Can Tho University (CTU) <i>Bachelor of Science in Computer Science</i> GPA: 4.0/4.0 Valedictorian (Rank 1/280) Full Scholarship	Can Tho, Vietnam 2015 – 2019

EXPERIENCE

Project Manager (AI Products) <i>LG Electronics</i> - Led 3 AI-driven product launches (Smart Home, Automotive); \$150M revenue in 18 months. - Managed 25+ cross-functional team (Eng, Data, UX, Legal); 100% on-schedule delivery. - Defined PRDs, OKRs, and go-to-market strategies; increased NPS by 32% via AI personalization. - Ran 40+ A/B tests globally (Korea, US, EU); localized models for 12 languages.	2023 – Present Seoul, South Korea
Data Scientist <i>Samsung Research</i> - Built recommendation engines using PyTorch & TensorFlow; improved CTR by 28%. - Developed real-time ML pipelines with Kafka & Airflow; served 500M+ users/day. - Conducted 50+ experiments; drove 22% uplift in user engagement metrics.	2021 – 2023 Seoul, South Korea
Data Engineer <i>Google Korea</i> - Designed petabyte-scale ETL using BigQuery, Dataflow, Spark; processed 10TB+/day. - Built monitoring dashboards in Looker; reduced latency by 60% for 200+ teams. - Optimized cloud costs; saved \$2.1M annually via query & storage tuning.	2019 – 2021 Seoul, South Korea

LANGUAGES

English	IELTS 8.5
Korean	TOPIK Level 5
Japanese	JLPT N2
Chinese (Mandarin)	HSK 5
French	DELFI B2
German	Basic

TECHNICAL SKILLS

Product Management: PRD, Roadmap, GTM, Monetization, A/B Testing, Jira, Figma, OKRs, User Research
AI/ML: PyTorch, TensorFlow, LLMs, RAG, MLOps, Recommendation Systems
Programming: Python, SQL, Java, C++, Scala, Bash
Data Engineering: Spark, Airflow, Kafka, BigQuery, Dataflow, GCP/AWS
Tools: Git, Docker, Kubernetes, Looker, Tableau, Postman, Agile/Scrum
